

Performance B Membership Form 2012

Squad Criteria

Swimmers in all competitive squads are expected to regularly enter competitions on different strokes and distances – including County Championships and Regional Championships (if the qualifying times have been met). They must meet training requirements as set by their coach(es) and must have an ambitious training attitude with high standards of training (always attempting to work on coaching points).

Performance B

Swimmers must attend a **minimum** of 4 hours (out of a possible 7) per week. This will increase in the future as the squad strengthens and more sessions are added. Performance swimmers must be achieving or aiming to achieve Regional qualifying times as well as making the required number of training sessions. Top squad swimmers are expected to show maturity during training sessions. Failure to attend the minimum amount of hours or a bad attitude to training will result in you being moved to a different squad.

All competitive squads are expected to swim in the monthly time trials and bi-annual club championships. This is the only way we can track your performance.
